AT YOUR SERVICE

Your telephone account is handled by a young lady in our business office, called a Service Representative, whose job is to make sure your telephone service is satisfactory at all times. Whether you're moving your telephone to a new location, or have a question about your bill, or about your telephone service, she'll be glad to help you. If you're moving or discontinuing service, please let us know as far as possible in advance.

If you prefer to transact business in person, we shall be glad to see you at the Business Office. Hours are from 8 A.M. to 5 P.M. Mondays through Fridays.

For Information and Service Calls . . .

IN GRANT PARK

Dial "Operator"
(Last opening on dial)

BUSINESS OFFICE—Applications for service,
information regarding bills, etc.:

475 East Oak Street, Kankakee Ask for "Business Office"

INFORMATION—For numbers not in Directory Ask for "Information"

REPAIR SERVICE—To report a telephone

"Out-of-order" Ask for "Repair Service"

For **ASSISTANCE** in reaching number Explain difficulty

IN MOMENCE

BUSINESS OFFICE—Applications for service,
information regarding bills, etc.:

475 East Oak Street, Kankakee Call Momence 9981

INFORMATION—For numbers not in Directory Call "Information"

REPAIR SERVICE—To report a telephone

"Out-of-order" Call "Repair Service"

For **ASSISTANCE** in reaching number Call "Supervisor"

You May Telephone Telegrams

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Company. Charges for telegrams, cablegrams or radiograms placed by telephone will appear on your monthly telephone bill by arrangement with Western Union. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

USE THIS DIRECTORY FIRST

Many calls to "Information" are unnecessary since they are for numbers which are listed in the directory. Please don't ask our Information operators to look up numbers unless you are sure they are not listed in this directory. You can get your call through faster by referring to this directory and calling by number. Your cooperation is appreciated.

CALLING AN

OUT-OF-TOWN PHONE?

Here's How To Save Time and Money

Information on placing your out-of-town calls—including rates to some points—may be found on the next page. And you'll find some time and money-saving tips on placing long distance calls on this page.

3 Ways to Save Money on Long Distance Calls

1. **CALL STATION-TO-STATION** if you are willing to talk to anyone who answers. Charges begin when anyone answers at the called telephone or private switchboard. Station-to-station rates are lower than person-to-person rates. But . . .

2. **CALL PERSON-TO-PERSON** if you want to talk to a particular person. Just tell the operator you wish to talk to a particular person. Charges begin when the called person answers.

(On a call from one point to another in Illinois, a "Report Charge" is made if the particular person you want cannot be reached and you ask the operator to cancel the call.)

3. **PLACE YOUR CALL AFTER 6:00 P.M. ON WEEK DAYS** or any time Sundays; you'll make a substantial saving. Rates are also reduced on Thanksgiving, Christmas and New Year's.

On calls within Illinois the reduced rates apply to "station" calls where the initial period rate is 45c or over and to "person" calls where the initial period rate is 70c or over. Reduced rates on calls to telephones outside of the state apply to "station" calls where the initial period rate is 40c or over and to "person" calls where the initial period rate is 55c or over.

Tips For Saving Time

You'll get faster service if you give the details of your call to the operator like this:

FIRST

Give her the name of the town and state you are calling. Then the telephone number, if you know it; otherwise, the name and address of the party you want.

EXAMPLE: "Detroit, Michigan—WO odward 5-3456"

SECOND

If it's a person-to-person call, also give the operator the name of the person you want.

THEN

Wait for the operator to ask your number . . . and remain at the telephone unless the operator says there will be a delay. Most long distance calls go through while you hold the line.

SPECIAL CALLS YOU CAN MAKE

OVERSEAS CALLS—You may talk by telephone to any one of more than 90 countries, territories and dominions throughout the world. Dial "Operator" or call "Long Distance" and place your call in the usual way.

SHIP-TO-SHORE CALLS—Most ships may be reached by telephone. Dial "Operator" or call "Long Distance" and place your call in the usual way.

CALLS TO VEHICLES—You can now telephone to or from properly equipped vehicles operating within mobile service areas. Calls can be made to or from any telephone reached by the Bell System. To call a mobile-equipped vehicle dial "Operator" or call "Long Distance" and tell operator you wish to place a Mobile telephone call, then give her the number of the vehicle you are calling.

COLLECT CALLS—See page 4

Out-of-Town Calls are Easy to Make

IN GRANT PARK

For all out-of-town calls—including
 "Long Distance" calls, calls to foreign
 countries and ships Dial "Operator"

For Mobile telephone calls—to mobile subscribers'
 automobiles, trucks, etc. Dial "Operator"
 (Tell operator you wish to place
 a Mobile telephone call.)

IN MOMENCE

For all out-of-town calls—including
 "Long Distance" calls, calls to foreign
 countries and ships Call "Long Distance"

For Mobile telephone calls—to mobile subscribers'
 automobiles, trucks, etc. Call "Long Distance"
 (Tell operator you wish to place
 a Mobile telephone call.)

Rates to Some Nearby Places

The following table shows the Day Station-to-station rates to some out-of-town places frequently called. The initial talking period is five minutes with the exception of Station-to-station rates of 30c or more, where the initial talking period is three minutes.

Rates from Grant Park, Illinois to		Rates from Momence, Illinois to	
Brook, Ind.	\$0.25	Brook, Ind.	\$0.25

CALLING LONG DISTANCE?

Some Long Distance Rates

NIGHT AND SUNDAY RATES apply from 6 P.M. to 4:30 A.M. and all day Sunday. Rates are for 3 minutes. (On Station-to-Station calls of 25 cents or less, rates are for 5 minutes.)

United States government tax is not included in the rates shown below. These are legal rates of the Company as of October 24, 1951.

TO PLACE COLLECT CALLS

If you place a call "Collect" and it is accepted on a "Collect" basis by the person you are calling, it is paid for by him instead of you. The charges are the same as on a regular station-to-station call or person-to-person call with these exceptions: The rate is higher on station-to-station collect calls to other Illinois telephones when the regular rate is 35c or less. On calls to telephones in other states, the collect rate is higher when the regular rate is 20c or less.

On calls within Illinois

If the party you are calling doesn't accept the charges, a "Report Charge" applies, to be paid by you. No "Report Charge" is made, however, if you decide to pay for the call yourself.

How to Use Your DIAL TELEPHONE

TO DIAL A CALL

1. **Look** in the telephone directory for the correct number.
2. **Listen** for the "dial tone." This steady humming sound tells you that the dial equipment is ready for your call. (From a coin box telephone, see next column.)
3. **To Dial** figure, place your finger firmly in the opening for the particular figure. Pull the dial around until your finger strikes the metal finger stop. Then, release the dial and allow it to return to rest without interference.

For information on out-of-town calls, see pages 2-4.

To Call Another Party on Your Line

You can determine if the party you are calling is on your line by comparing his telephone number with yours. If the first three figures of the desired party's number are the same as the first three figures of your number, this telephone is on your line.

Party line customers when calling another party on their line dial a special code number to ring the desired telephone—**not** the telephone number as listed in the directory for that party.

The Code Number consists of three figures

1. The first figure is always "9".
2. The second is the last figure of your number.
3. The third is the last figure of the desired party's number.

Example

Suppose your number is "7351" and you are calling "7352". The code number in this case is "912"—"9" (in all cases), "1" (the last figure of your telephone number), and "2" (the last figure of the other party's number).

If You Dial in Error

In case finger slips while dialing

Or if you've dialed a wrong digit—

Replace the receiver . . .

Wait a few seconds . . .

Lift the receiver to your ear and when you hear the hum of "dial tone,"

Dial the complete number.

When You Can't See Dial

If for any reason you cannot see the dial, locate the first opening just below the finger stop, pull the dial all the way around in the usual way, and let it return. Your operator will answer.

Telephone Signals You Should Know

THE "RINGING SIGNAL"

Within a few seconds after you complete your dialing, if the line is not busy, you will hear the "ringing signal" which tells you that the called telephone is being rung. This is an interrupted "burring" sound.

THE "BUSY SIGNAL"

By signaling you with a "buzz-buzz-buzz" sound, the dial equipment will tell you (shortly after you finish dialing a number) when the telephone you are calling is in use. When you hear this "busy signal," be sure to replace the receiver before trying your call again—or placing another call.

Momence, Ill.

HOW TO PLACE YOUR CALL

- Dial the code number.
- Hang up your receiver to allow the other party's bell to ring. Your bell will also ring at intervals, indicating that the other telephone is ringing.
- When the ringing stops you will know the other party has answered.
- Remove your receiver.
- Proceed with conversation.

If your party does not answer within a reasonable period, remove your receiver momentarily in order to clear the line.

FROM COIN BOX DIAL PHONES

Local Calls

1. Remove receiver from hook, but do not deposit money.
2. Listen for dial tone.
3. Dial number wanted.
4. When the called number answers, you will hear the dial tone again, then deposit one dime or two nickels promptly. One nickel won't work.

To call out-of-town places:

1. Remove the receiver from the hook, but do not deposit money.
2. Listen for the dial tone.
3. Dial "Operator". When the operator answers, give the call to her; deposit money when the operator asks for it.

TO CALL FROM A NON-DIAL PHONE

1. Look in the directory
 2. Listen for the operator's "Number, please"?
 3. Give number to operator
- ### FROM COIN BOX PHONES

First Remove receiver from hook . . . but do not deposit money. Listen for operator's answer.

Then Give call to her. Deposit money when operator asks for it.

For information on out-of-town calls—see pages 2 to 4.

For Your Protection

For your protection, telephone employees who visit the public, carry identification cards with their names and photographs. If you have the slightest doubt about anyone who calls "from the Telephone Company," ask to see his credentials. Telephone people will be glad to show you their cards.

Just as much as the people next door or across the street, the folks on your party line telephone are neighbors. The best party-line service for *all* depends on courteous, cooperative use of the line by *all*. Here's how you can do your part.

How to be a GOOD TELEPHONE NEIGHBOR in 6 Easy Lessons

Answer Promptly

This will insure receiving all calls intended for you and will prevent possible annoyance to another family on the line.

Take a Breather

A "breathing spell" between calls gives your neighbor a chance at the line. It also permits incoming calls to come through.

Listen Before Using

Make certain that the line is free before attempting to call a number. (In the case of dial service, listen for the Dial Tone. If you hear successive clicks, it means that someone else is dialing a number. Wait until they stop; then explain to the party that you have interfered with his dialing. And hang up.)

TIPS TO ALL TELEPHONE USERS

"Beep" Tone Tells When

Conversation is Being Recorded

If you hear a brief, high, almost musical note on your telephone line while you are talking—a sort of gentle "beep" repeated every 15 seconds or so—you will know that the person to whom you are talking has a recording machine which is making a record of your conversation.

The signal is produced automatically by the device used to connect the recorder to the telephone line, and it is provided by the telephone company for your protection.

If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. The "beep" signal stops when the recorder is disconnected.

Give the Person You Call . . . Time to Answer

Time passes slowly when you are waiting at the telephone for some one to answer your call. A few seconds may seem like a couple of minutes.

When you make a telephone call, give the person you are calling plenty of time to answer. He may be far from the telephone or may not have heard it ring the first time. He may have been delayed in answering.

By waiting a short time you may save yourself the trouble of calling again.

Replace Receiver Properly

If you don't the line is just as "busy" as if someone were talking on it. Incoming calls are blocked; and eventually no one can reach the operator.

And when you find the line already in use, the neighborly way is to hang up gently.

Tell the Children How

Teach 'em young how to use the telephone—to be considerate of others on the party line . . . not to talk unnecessarily long.

Give Way in Emergencies

If your neighbor says the line is needed for emergency, cut the call short and give the right-of-way. You might otherwise always regret it.

BE SURE OF THE NUMBER BEFORE YOU CALL

For That Home-To-Be...

PLANNED TELEPHONE SERVICE!

Telephone wiring can be as modern and inconspicuous as plumbing and electrical work *if provisions for it are made before your home is built.*

Concealed wiring through the use of rigid, flexible or thinwall conduit enables you to have *built-in telephone outlets* . . . neat little plates similar in design to electrical outlets . . . wherever you desire.

Conduit placed in walls and floors by the contractor at the time of construction, eliminates exposed wiring on baseboards and moldings and reduces the possibility of interruptions to your telephone service. Costs are nominal and the telephone company provides all wires and wiring work. You merely have the conduit installed.

Your telephone company will be glad to consult with you *without cost or obligation* and make recommendations for built-in conduit. Just call our business office and ask for "Architects' and Builders' Service."

ARCHITECTS, CONTRACTORS AND BUILDERS
ARE INVITED TO CALL UPON US FOR HELP IN
PLANNING TELEPHONE FACILITIES.
